Announcing our latest custom fit 9" housing... Our **Bolt-in 1955-1957 Chevy 9" Rear**

**BE BULLET
PROOF**

Shown with optional polished aluminum third member and brake line kit.

Bullet-proof 9-inch reliability for any Tri-Five Chevy — now a simple swap.

It's finally here! Our 9" rear end assembly is now available as a **direct bolt-in** for your '55-'57 Chevy. These are brand-new USA-made reproduction-style 9-inch housings that replicate Ford's most popular design, complete with big bearings and Torino flanges. Tell us if you want it in the stock width, or narrowed 2" so you can run 8-inch rims — there's no extra charge. Shown here with our popular 11" X 2-1/4" Ford drum brake kit. Or, select other brake options (see below). Basic bolt-in housings with axles from \$895.

100% COMPLETE HOUSING KITS INCLUDE:

- New high-performance 31-spline axles.
- All spring perches, tabs, and brackets in place.
- Big 11" drum brakes as shown above.
- Tru Trac posi third member in your desired ratio
- Our "Superlight" nodular iron case
- New pinion yoke, bearings, studs, seals, housing vent, and hardware kit.
- \$2950 complete (plus shipping)

AVAILABLE OPTIONS:

- **Disc brakes by Stainless Steel Brakes, add \$385.**
- **S.S. brake line kits, add \$250 (see photo below)**
- **Powder coat rear in any color, add \$550**
(Includes housing, third member, drums, backing plates, yoke, and pinion support; shipped fully assembled and well-crated)
- **Aluminum third member, unpolished, add \$200**
- **Aluminum third member, polished, add \$600**

Our computer-made stainless steel brake line kit enhances the appearance and provides more detail to your 9" rear. The line kits include everything you see, including the junction block and flex hose. All our housings include the brake line clips to keep your brake lines properly secured and to provide a neat, factory-like appearance. No other company offers this much attention to detailing and completeness.
